PROFESSIONAL PROFILE

Junior Full-Stack Developer trained at Neoland's Bootcamp (2026), with a solid foundation in JavaScript, React, Node.js, Express and MongoDB. Hands-on experience building REST APIs, JWT authentication, CRUD operations, testing with Jest, Mocha and Chai, and MVC architecture. Prior background in teaching and administration that brings clear communication, organization and self-directed learning, now applied to software development. Resourceful professional, highly motivated to join a technical team to keep growing and add value from day one.

TECHNICAL SKILLS

- Languages: JavaScript (ES6+), TypeScript (basic)
- Frontend: React, React Router, HTML5, CSS3, Tailwind CSS, Vite, Recharts, FullCalendar
- Backend: Node.js, Express, REST APIs, JWT (httpOnly cookies), CRUD, MVC Architecture, Multer, Cloudinary
- Databases: MongoDB, Mongoose, MongoDB Atlas
- Tools & version control: Git, GitHub, Postman, Jest, Mocha, Chai, Supertest, Vercel, Render, VS Code
- Other: Endpoint testing, consuming external APIs, reusable components, responsive design, agile methodologies (basic Scrum)

PROJECTS

HUELLA — Pet Management App with QR Emergency Card (Full-Stack Project) *11/2026*
React · Vite · Node.js · Express · MongoDB Atlas · Cloudinary · OpenStreetMap API · Mocha | github.com/SergioPerez3/Huella
- Pet management app: profiles, health records, weight, expenses with charts, documents and a task calendar with recurrence.
- Public emergency card with a QR code for the pet's collar, landing page, avatars and custom responsive design.
- Nearby services finder (vets, groomers, boarding…) using OpenStreetMap's open APIs (Nominatim and Overpass): caching and fallback servers.
- REST API with httpOnly cookie sessions, secure file uploads, per-user data isolation and tests with Mocha, Chai and Supertest.

TASTEFY — Recipe-Sharing Social App (Full-Stack Project) *10/2026*
React · Vite · Node.js · Express · MongoDB Atlas · Cloudinary | github.com/SergioPerez3/Tastefy | tastefy-peach.vercel.app
- Platform where users sign up, publish recipes and browse other users' recipes, with a personal dashboard and full CRUD.
- Recipe pantry with filters and pagination, home-page carousels, dark theme and mobile-responsive design.
- Image uploads with Multer and Cloudinary; API on Render, frontend on Vercel, database on MongoDB Atlas.

WeBeW — Marketplace (Full-Stack Project) *06/2026*
React · Node.js · Express · MongoDB · JWT | github.com/SergioPerez3 | https://frontend-proyecto-final-sergio.onrender.com/
- Built a complete marketplace with user authentication, protected routes and product CRUD.
- Frontend developed with React and Tailwind CSS, with responsive design and reusable components.
- Modular backend with Express and MongoDB following MVC architecture, including data validation and error handling.

JWT Authentication & CRUD App (Full-Stack Project) *05/2026*
React · Node.js · Express · MongoDB · JWT | github.com/SergioPerez3
- User management with JWT authentication, full CRUD, custom hooks and responsive design.
- API documentation and basic testing of the main endpoints.

Shopping Cart & Favorites REST APIs (Backend Projects) *03/2026 – 04/2026*
Node.js · Express · MongoDB · JWT · Jest | github.com/SergioPerez3
- Shopping-cart API with protected routes, controllers and structured models, and favorites API with full CRUD; both with automated Jest tests.

Pokedex React (Frontend Project) *02/2026*
React · JavaScript · Fetch API · CSS · Vite | github.com/SergioPerez3
- Consumed the public Pokémon API with state management (hooks), component-based architecture and responsive design.

EDUCATION

Full-Stack Web Development Bootcamp *01/2026 – 07/2026*
Neoland
- JavaScript, React, Node.js, Express, MongoDB, Tailwind CSS, Testing (Jest), Git, REST APIs.

Bachelor's Degree in Primary Education *2014 – 2018*
Universidad Europea de Madrid (UEM) — Madrid
- Competencies in communication, group management and organization.

PROFESSIONAL EXPERIENCE (PRIOR TO IT)

Primary School Teacher *2025*
- Lesson planning and group management; coordination with teaching staff and families.

Administrative / Customer Service *2024*
- Document management, issue resolution and cross-department coordination.

Private Tutor *2018 – 2021*
- Academic support and exam preparation; developed teaching materials tailored to each student.

LANGUAGES

- Spanish: native | English: B2 level (Aptis)
